

IGNORE THESE 5 FREE AI TOOLS

01

IMAGE GENERATION

ADOBE FIREFLY

Perfect for content creators & designers. Royalty-free assets, too! Generate high-quality images and text effects using just prompts.

02

VIDEO GENERATION

VEO

Veo 3, launched in May 2025, is Google's latest text-to-video model from DeepMind

TEXT-BASED PERPLEXITY AI

Research assistant that gives real-time answers with sources. It comes under category of Conversational AI + Search Engine

BLOG WRITING LEX.PAGE

Distraction-free AI writing assistant
for blogs, ideas & editing. Writers,
meet your new sidekick.

VOICEOVERS

MURF.AI

Murf AI is a studio-quality AI voiceover tool with 120+ realistic voices in 20+ languages. It lets you fine-tune pitch, pace, and timing, add background music, and sync with videos — all in one simple editor.

BONUS

06

AUTOMATION AI

N8N.IO

n8n (short for “nodemation”) is a workflow automation tool that lets you connect apps, APIs, and services — with or without coding.
